# THE REPUBLIC OF GOD: AN INSTITUTE OF THEOLOGY.

By ELISHA MULFORD, LL.D., author of "The Nation."  
*I vol. 8vo. \$2.00.*

*From the New York Times.*

Nothing like this unique book has yet been written. It is a strong, clear, positive statement of the theology of the Christ, directed to the thought of the age. It is the first attempt to explain theology by the scientific method, the first effort to incorporate into the Christian system the well-known truths of philosophy, and to explain the one by the other. It would be presumptuous to claim that Dr. Mulford is the first to interpret Christianity to the world, but it is not too much to say that he has presented the theology of the Christ for the first time in the way in which it includes the foremost religious thought of the Nineteenth Century and rises above the points wherein different religious systems clash. The prime thought of the book can no more be shaken than the eternal hills, and, whether men accept or dispute different points in its development, it is one of the few books that sooner or later create a new world for men to live in.

*From the Advance (Chicago).*

One of the deepest, clearest thinkers, as he is one of the most luminous writers in America, is Dr. Elisha Mulford. His "Republic of God" is a distinct contribution to the Christian thought of the time. One reads the book with continual surprises of pleasure at the combination of clearness, strength, and beauty. The whole treatise is pervaded by a noble eloquence, such as befits the grandeur of its conceptions and the fervor of its spiritual enthusiasm.

*From the Churchman.*

Critics have said of this book that it is an attempt to get rid of the fundamental truths of Christianity. On the contrary, it sets forth those truths with unusual force. It defends them against the special errors which are rife to-day. It is a bold and a most successful attempt to defend the faith from the attacks of its most dangerous enemies. . . . We should like to call attention to the author's views of the Atonement, by which that controversy-laden word comes out with real and living meaning. . . . It is the most important contribution to theological literature thus far made by any American author.

*From the American (Philadelphia).*

Dr. Mulford is already so widely and so favorably known as the author of that profound and exhaustive study of speculative politics, "The Nation," that it is superfluous to say that his new work is alike distinguished by power of thought, felicity of style, and perfect candor. To employ the phrase of King James, there is as much conviction in one leaf of his book as in many another volume.

*From the Boston Advertiser.*

Perhaps it is not too much to say that, taken as a whole, no book on the statement of the great truths of Christianity at once so fresh, so clear, so fundamental, and so fully grasping and solving the religious problems of our time, has yet been written by any American,

## The Candle of the Lord and Other Sermons.

By the Rev. PHILLIPS BROOKS, D.D.

12mo. Twenty-one Sermons. \$1.75.

"Unlike Robertson, Phillips Brooks continually reminds us of him. He has the same analytical power; the same broad human sympathy; the same keen knowledge of human nature toned and tempered and made the more true by his sympathies; the same mysterious and indefinable element of divine life, so that his message comes with a *quasi* authority, wholly unecclesiastical, purely personal; and the same undertone of sadness, the same touch of pathos, speaking low as a man who is saddened by his own seeming success—a success which is to his thought, and in comparison with his ideals, a failure."—*Harper's Magazine*.

"No one in our country has had more continuous or more conspicuous success in preaching than Mr. Brooks."—*Scribner's Monthly*.

"Long may he live to preach, and long may these sermons be read in regions where he cannot be heard, carrying life and joy and peace and rescue to many."—*Boston Transcript*.

"A very scholarly and thorough discussion of the whole subject, in the light of the newest scholarship and the largest research. It is really refreshing to read such an admirable piece of controversial theology, for the temper in which it is written is as admirable as the learning and precision of statement. . . . He certainly presents the case with great plausibility and force."—*Christian at Work*.
